

TAHIR MEHMOOD

FULL STACK DEVELOPER (MERN)

Rawalpindi | +92306-1436931 | tahirmehmood1827@gmail.com | Portfolio | GitHub | LinkedIn

PROFESSIONAL OBJECTIVE

Full Stack (MERN) Developer who translates complex requirements into scalable, production-grade web applications, bringing **3+ years of experience** across **React.js, Next.js, Node.js, Express.js, and MongoDB**. Skilled in **TypeScript**, responsive UI development, **REST API design, JWT/OAuth authentication**, and third-party **AI integrations** (voice agents, OCR, and LLM/RAG systems). Have shipped production **SaaS platforms** with **Stripe billing**, AWS S3 media pipelines, real-time **WebSocket** features, and **PostgreSQL/Supabase** back ends, and leverage AI-assisted development tools—**Cursor AI, Claude Code, and GitHub Copilot**—to accelerate delivery and boost productivity. Adept at creating reusable component libraries and modular services in **Agile** teams and deploying on Vercel and Netlify—focused on clean architecture, performance, and measurable business impact.

PROFESSIONAL EXPERIENCE

Minibyte AI, Rawalpindi

Sep 2024 – Present

Full Stack Developer (MERN)

- > Delivered multiple production-grade SaaS platforms (voice agents, dashboards, annotation & OCR tools) using **React.js, Node.js, Express.js, MongoDB, and Supabase**.
- > Integrated **Vapi.ai, Bolna.ai, and OCR engine APIs**, automating voice-call handling and document-annotation workflows and significantly reducing manual processing time.
- > Architected a reusable component library and modular backend services, cutting new-feature development time and reducing code duplication across **5+ SaaS products**.
- > Implemented **JWT/OAuth authentication**, credit-based billing, and S3-backed media pipelines, improving reliability of usage tracking and media delivery.
- > Drove production features for **NOLMT.AI, Accelerate**, and hotel-management platforms within agile teams, streamlining releases through Git/GitHub workflows.

Slash Byte, Faisalabad

Dec 2023 – Mar 2024

Junior Full Stack Developer

- > Built and deployed full-stack applications with **React.js, Node.js, Express.js, MongoDB, and Material UI**, shipping responsive features in an agile team.
- > Standardized reusable UI components and optimized REST APIs, improving frontend consistency and backend response reliability.

PROJECTS HIGHLIGHTS (SELECTED)

CHATLEY AI – AI-Powered Voice Agent

- > Developed the **Vapi.ai** voice-agent layer (agent management, knowledge base, appointment booking), **automating call handling** and cutting manual scheduling effort.
- > Crafted responsive landing-page and dashboard UI, improving **usability and consistency** across the product.
- > **Stack: React.js, Node.js, Vite, Tailwind CSS, Axios, Express.js, MongoDB, JWT, Vapi.ai**

AETHERO – Annotation Tool

- > Designed the annotation UI with **multi-model selection (YOLO/FRCNN)**, improving **annotation speed and accuracy** for labeling workflows.
- > Embedded **Python detection APIs** into a **Fabric.js** canvas, streamlining project management and reducing manual annotation effort.
- > **Stack: React.js, Vite, Tailwind CSS, Fabric.js, Axios, JWT, Express.js, Node.js, MongoDB**

NOLMT.AI – AI Generation Platform

- > Engineered **credit-based billing** and a secure **S3-backed media pipeline**, significantly reducing billing errors and enabling faster media delivery.
- > Launched **Stripe subscriptions**, role-based dashboards, and automated usage-tracking jobs, improving reliability of billing and retention analytics.
- > **Stack: React.js, Vite, Tailwind CSS, TypeScript, Axios, Express.js, Node.js, Supabase, Stripe, AWS S3, JWT, OAuth**

ACCELERATE – AI Coaching Platform

- > Powered **real-time AI coaching interfaces** (text chat + live voice) with a **WebSocket-driven architecture**, enabling instant, personalized responses and improving user engagement.
- > Connected **ElevenLabs voice** and a **Supabase-backed RAG pipeline** with **role-based access control (RBAC)**, delivering context-aware coaching and secure, scalable knowledge access.
- > **Stack: React, TypeScript, Tailwind CSS, Node.js, Express.js, ElevenLabs, Supabase (RAG), WebSocket, AWS S3, lucide-react**

TECHNICAL SKILLS

- > **Languages:** JavaScript, TypeScript
- > **Frontend:** React.js, Next.js, Tailwind CSS, Bootstrap, Material UI, Vite
- > **Backend:** Node.js, Express.js, MongoDB, Supabase, PostgreSQL, JWT Authentication, REST APIs
- > **Payments & Integrations:** Stripe, Kajabi, Vapi.ai, ElevenLabs, OCR APIs
- > **Version Control & Tools:** Git, GitHub, Postman, Claude AI, Cursor AI
- > **Deployment:** Vercel, Netlify, AWS S3

EDUCATION AND QUALIFICATION

Bachelors in Computer Science from University of Agriculture Faisalabad : 2023
